Hello

Hi, my name is Vitor and I have 10+ years of experience as a Full Stack Engineer. I have very strong skills in javascript, ReactJs + Redux and responsive layouts. On the backend side I'm also highly proficient in PHP, Symfony and have some knowledge of infrastructure with Kubernetes, Docker and AWS. I love to break down complex scenarios, simplify processes and create simple solutions that help both the company and my fellow colleagues.

Education

Centro de Estudos Superiores de Maceió, CESMAC

Bachelor, Computer Systems Analysis
